

Zadanie 1. Oblicz sumy sposobem pamięciowym

$202 + 33 = \dots$

$101 + 134 = \dots$

$302 + 112 = \dots$

$144 + 141 = \dots$

$210 + 151 = \dots$

$154 + 126 = \dots$

$241 + 147 = \dots$

$332 + 102 = \dots$

$232 + 120 = \dots$

$154 + 231 = \dots$

$418 + 102 = \dots$

$302 + 130 = \dots$

$232 + 145 = \dots$

$377 + 223 = \dots$

$132 + 120 = \dots$

$362 + 128 = \dots$

$132 + 323 = \dots$

$1.112 + 140 = \dots$

$108 + 200 = \dots$

$201 + 100 = \dots$

$1.002 + 150 = \dots$

**Zadanie 2. Oblicz sumy trzech składników sposobem pamięciowym.
Pamiętaj, że dodawanie jest przemienne.**

$110 + 5 + 13 = \dots$

$24 + 10 + 12 = \dots$

$20 + 4 + 140 = \dots$

$15 + 5 + 120 = \dots$

$320 + 11 + 10 = \dots$

$120 + 23 + 15 = \dots$

$80 + 41 + 19 = \dots$

$150 + 35 + 150 = \dots$

$250 + 25 + 12 = \dots$

$120 + 41 + 80 = \dots$

$150 + 15 + 20 = \dots$

$120 + 12 + 12 = \dots$

$140 + 16 + 60 = \dots$

$400 + 41 + 19 = \dots$

$220 + 22 + 26 = \dots$

$160 + 24 + 40 = \dots$

$200 + 11 + 19 = \dots$

$150 + 11 + 150 = \dots$
