

Zadanie 1. Oblicz sumy sposobem pamięciowym

$1.202 + 303 = \dots$

$601 + 234 = \dots$

$1.302 + 112 = \dots$

$144 + 1.241 = \dots$

$410 + 551 = \dots$

$354 + 126 = \dots$

$241 + 147 = \dots$

$432 + 102 = \dots$

$232 + 120 = \dots$

$1.254 + 1.231 = \dots$

$418 + 102 = \dots$

$1.302 + 130 = \dots$

$232 + 345 = \dots$

$1.371 + 223 = \dots$

$1.032 + 1.020 = \dots$

$1.330 + 228 = \dots$

$1.132 + 323 = \dots$

$12.112 + 140 = \dots$

$1.108 + 1.200 = \dots$

$1.201 + 100 = \dots$

$11.002 + 1.150 = \dots$

Zadanie 2. Oblicz sumy trzech składników sposobem pamięciowym.

Pamiętaj, że dodawanie jest przemienne.

$110 + 500 + 13 = \dots$

$240 + 100 + 12 = \dots$

$200 + 40 + 140 = \dots$

$150 + 50 + 120 = \dots$

$320 + 101 + 100 = \dots$

$120 + 230 + 150 = \dots$

$80 + 410 + 190 = \dots$

$150 + 35 + 150 = \dots$

$250 + 25 + 120 = \dots$

$120 + 401 + 80 = \dots$

$1.150 + 150 + 200 = \dots$

$1.120 + 120 + 120 = \dots$

$140 + 160 + 60 = \dots$

$400 + 410 + 90 = \dots$

$220 + 22 + 260 = \dots$

$160 + 240 + 340 = \dots$

$1.200 + 110 + 190 = \dots$

$1.150 + 110 + 1.150 = \dots$
